

Photobook 21x15cm

Preparing files for printing

Size

Net size (closed) 210 x 147 mm

Finished size (Net Size) is the size of the album you get.

Gross size 216 x 153 mm

Gross size is the net size with added bleeds.

The bleed will be trimmed off.

All bleeds are 3 mm.

Internal margin

Internal margin 3 mm from the cut/trim line, and from the spine – 6 mm from the cut/trim line.

Graphics and text should be at least 3mm away from the trim line towards the inside of the album.

Proper Margin prevents text and graphics from being trimmed.

Cut/Crop line

Cut/Crop line indicates album final size.

Bleed line

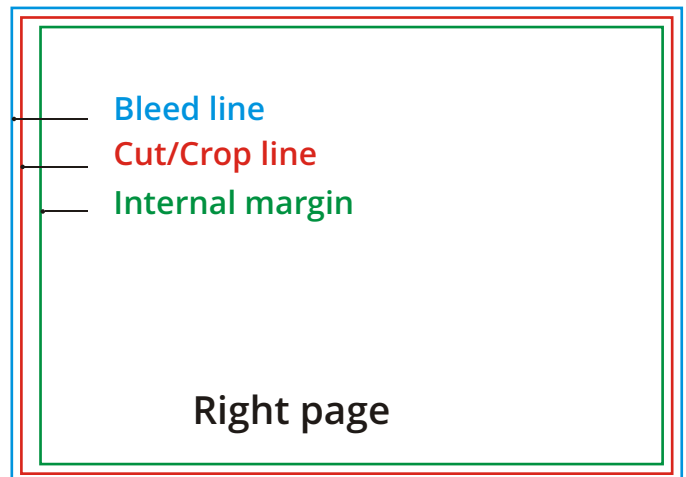

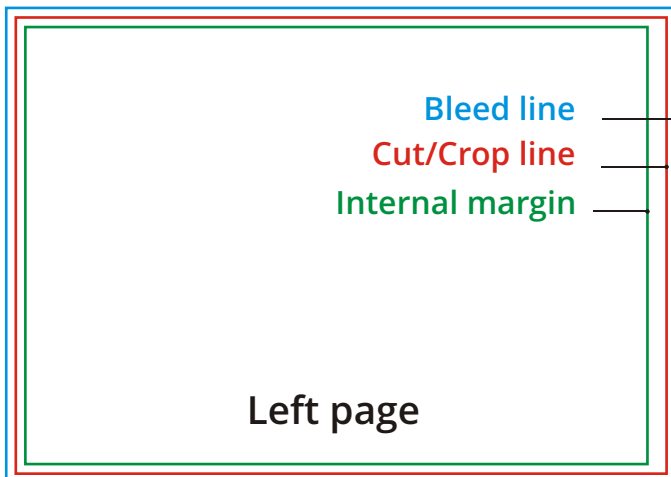

Album size extended 3 mm beyond the cut/crop line.

All elements should be dragged to this line to avoid „white line effect“ after trimming.

Colours and resolution

For printing all files should be prepared in RGB.

Recommended resolution is 300 dpi.

Album templates available for download in: ai, cdr, pdf and psd.

For printing, please send files in pdf, jpg, tiff.
